CAREER OBJECTIVE

Analytical B.Tech (AI & ML) undergraduate who enjoys turning raw data into clear insights using Python, Pandas and NumPy. Seeking a Data Analyst role to support data-driven decisions and grow my skills in visualization and reporting.

QUALIFICATION

Bachelor of Technology in Artificial Intelligence and Machine Learning (2023 - 2027)

Dhanalakshmi Srinivasan University | CGPA: 8.23

Intermediate (2021 - 2023)

Sri Gayathri Junior College, Anantapur District | Percentage: 85%

SSC (2020 - 2021)

ZPH High School, Siddarampuram, Anantapur District | Percentage: 93%

SKILLS

- **Data Analysis:** Python, Pandas and NumPy for cleaning, transforming and exploring datasets.
- **Visualization:** Matplotlib charts to present patterns and findings clearly.
- **Statistics and Modeling:** Data preprocessing and model evaluation with scikit-learn.
- **Analytical Thinking:** Strong grounding in data structures, algorithms and data-driven problem solving.
- **Communication:** Able to explain technical findings in simple terms to non-technical people.
- **Data Cleaning:** Handling missing values, duplicates and inconsistent data before analysis.

INTERNSHIPS

AI/ML Intern | Averixis Solutions Pvt. Ltd. (Apr 1 - May 31, 2026)

- Cleaned and preprocessed data using Pandas and NumPy before modeling.
- Evaluated and tested model results end to end using Python.
- Worked with mentors and peers to deliver results under deadlines.

C++ Programming Intern | CodeAlpha (Jul 1 - Jul 31, 2026)

- Applied data structures and algorithmic thinking to solve programming problems.
- Wrote and tested Python and C++ code to process and organise data.

PROJECTS

Retail Sales Analysis | Python, Pandas, Matplotlib

- Cleaned a public retail sales dataset and analysed revenue by region, category and month.
- Presented key findings in charts to highlight top categories, weak regions and seasonal trends.
- Used Pandas groupby and aggregation to summarise sales by segment.

Movie Ratings Exploratory Analysis | Python, Pandas, NumPy, Matplotlib

- Handled missing values and duplicates, then explored how genre, year and budget relate to ratings.
- Published charts and a short write-up on GitHub.
- Visualized relationships with Matplotlib bar charts, histograms and scatter plots.

Activity Performance Monitor | Python, OpenCV, Pandas, NumPy, Matplotlib

- Extracted features from video data and processed them with Pandas and NumPy for activity classification.
- Used Matplotlib to visualize the extracted features and results.

Student Performance Analysis | Python, Pandas, Matplotlib

- Analysed how study habits and attendance relate to exam scores in a public dataset.
- Summarised the top findings in clear charts and a short written conclusion.

COURSEWORK

Data Science, Machine Learning, Data Structures and Algorithms, Python Programming, Computer Vision

CERTIFICATIONS

- Python Programming — Internshala (March 2025)
- Basics of Data Science — uniAthena (April 2025)
