CAREER OBJECTIVE

B.Tech CSE undergraduate transitioning into Digital Marketing, combining hands-on experience in content writing, social media, and Canva-based graphic design with a strong technical foundation in web development and data analysis. Skilled in creating engaging content, building responsive websites with clean UI/UX, and using Python-based tools to analyse data and build visual dashboards. Seeking an entry-level Digital Marketing Executive role to apply creative, analytical, and technical skills toward content creation, campaign support, and performance tracking.

QUALIFICATION

Bachelor of Technology in Artificial Intelligence and Machine Learning (2023 – 2027)

Dhanalakshmi Srinivasan University | CGPA: 8.23

Intermediate (2021 – 2023)

Sri Gayathri Junior College, Anantapur District | Percentage: 85%

SSC (2020 – 2021)

ZPH High School, Siddarampuram, Anantapur District | Percentage: 93%

DIGITAL MARKETING & CREATIVE SKILLS

- **Social Media:** Social media posting and content management across platforms
- **Content Writing:** Copywriting and content creation for online/social platforms
- **Graphic Designing:** Canva — basic design for social media posts and promotional creatives
- **Web & UI/UX:** Website & landing page understanding, responsive design, user-centric navigation

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript, Responsive Web Design, UI/UX Implementation
- **Data & Analytics:** Python, Pandas, NumPy, Matplotlib — data analysis and visual dashboard creation
- **Programming Languages:** C++, Python
- **Core CS Fundamentals:** OOP, Data Structures, Algorithms

NON-TECHNICAL SKILLS

Analytical & Critical Thinking | Creative Thinking | Effective Communication | Collaboration & Teamwork

PROJECTS

1. Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and professional experience.
- Implemented a clean, user-centric UI/UX with intuitive navigation and landing-page structure to effectively present content to visitors and recruiters.
- Tools Used: HTML, CSS, JavaScript

2. Activity Performance Monitor

- Engineered a computer vision pipeline using OpenCV for real-time feature extraction and activity classification.
- Pre-processed and structured multivariate activity data using Pandas/NumPy for performance analysis.
- Built visual analytics dashboards using Matplotlib to interpret performance trends and patterns.
- Tools Used: Python, OpenCV, Pandas, NumPy, Matplotlib

INTERNSHIPS

1. AI/ML Intern | Averix Solutions Pvt. Ltd.

- Completed an internship in Artificial Intelligence and Machine Learning with hands-on model development exposure.
- Applied data preprocessing, supervised learning, and model evaluation techniques using Python.
- Worked with Pandas, NumPy, and scikit-learn to build and analyse ML models.

2. C++ Programming Intern | CodeAlpha

- Completed a virtual internship focused on core C++ programming and software development fundamentals.
- Implemented programs leveraging data structures, control flow, and object-oriented programming (OOP) principles.
- Applied memory management, pointers, and modular coding practices to build efficient C++ solutions.

CERTIFICATIONS

- Python Programming — Internshala (March 2025)
- Basics of Data Science — uniAthena (April 2025)
