## CAREER OBJECTIVE

B.Tech (AI & ML) undergraduate with hands-on experience in Python, C++, and web fundamentals (HTML, CSS, JavaScript), plus machine learning model development and data analytics using Pandas, NumPy, and Scikit-learn. Seeking an entry-level LMS Developer / Full Stack Developer role to build responsive web platforms and apply AI/ML API integration skills to learning management features.

## QUALIFICATION

**Bachelor of Technology in Artificial Intelligence and Machine Learning** (2023 – 2027)

Dhanalakshmi Srinivasan University | CGPA: 8.23

**Intermediate** (2021 – 2023)

Sri Gayathri Junior College, Anantapur District | Percentage: 85%

**SSC** (2020 – 2021)

ZPH High School, Siddarampuram, Anantapur District | Percentage: 93%

## TECHNICAL SKILLS

- Web Development:** HTML, CSS, JavaScript, Responsive Web Design, UI/UX Implementation
- Programming Languages:** Python, C++
- Core CS Fundamentals:** Object-Oriented Programming (OOP), Data Structures (Arrays, Linked Lists, Stacks, Queues), Algorithms (Sorting, Searching, Recursion), Memory Management & Pointers
- AI/ML & Data:** Supervised & Unsupervised Learning, Model Building, Training & Evaluation, Pandas, NumPy, Scikit-learn, TensorFlow/PyTorch (exposure) – relevant to AI/ML API integration
- Tools:** Git & GitHub

## NON-TECHNICAL SKILLS

Analytical & Critical Thinking | Effective Communication | Collaboration & Teamwork

## PROJECTS

### 1. Personal Portfolio Website

- Designed and developed a fully responsive personal website with a clean, user-centric UI/UX and intuitive navigation – directly applying frontend and responsive-design skills relevant to LMS interface development.
- Structured multi-section layouts (projects, skills, experience) with maintainable, semantic HTML/CSS and JavaScript-driven interactivity.

Tools Used: HTML, CSS, JavaScript

### 2. Activity Performance Monitor

- Engineered a computer vision pipeline using OpenCV for real-time feature extraction and activity classification.
- Pre-processed and structured multivariate activity data using Pandas/NumPy for model-ready analysis – skills transferable to LMS progress-tracking and analytics dashboards.
- Built visual analytics dashboards using Matplotlib to interpret activity patterns and performance trends.

Tools Used: Python, OpenCV, Pandas, NumPy, Matplotlib

## INTERSHIPS

**AI/ML Intern | Averix Solutions Pvt. Ltd.** (April – May 2026)

- Completed an internship in Artificial Intelligence and Machine Learning with hands-on model development exposure.
- Applied data preprocessing, supervised learning, and model evaluation techniques using Python, Pandas, NumPy, and scikit-learn.

**C++ Programming Intern | CodeAlpha** (June – July 2026)

- Completed a virtual internship focused on core C++ programming and software development fundamentals.
- Implemented programs using data structures, control flow, and object-oriented programming (OOP) principles.

- Applied memory management, pointers, and modular coding practices to build efficient, maintainable solutions.

## CERTIFICATIONS

---

- Python Programming — Internshala (March 2025)
- Basics of Data Science — uniAthena (April 2025)
