CAREER OBJECTIVE

B.Tech (AI & ML) undergraduate seeking the Associate Trainee – Technical role, bringing a solid foundation in Python, Object-Oriented Programming, and Data Structures & Algorithms, along with hands-on exposure to machine learning model development, web development, and database-driven applications. Comfortable working across languages and stacks, with practical experience building, testing, and deploying end-to-end software solutions, and quick to pick up new frameworks such as the MERN stack and cloud platforms in a real-time project environment.

QUALIFICATION

Bachelor of Technology in Artificial Intelligence and Machine Learning (2023 - 2027)

Dhanalakshmi Srinivasan University | CGPA: 8.23

Intermediate (2021 - 2023)

Sri Gayathri Junior College, Anantapur District | Percentage: 85%

SSC (2020 - 2021)

ZPH High School, Siddarampuram, Anantapur District | Percentage: 93%

TECHNICAL SKILLS

- Programming: Python, C++, OOP, Data Structures & Algorithms
- Full Stack Development: HTML, CSS, JavaScript, MERN Stack (adaptable)
- AI / Machine Learning: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch
- Databases & APIs: API integration, data-driven application development
- Cloud Computing: foundational knowledge, quick to adapt
- Data & Visualization: Power BI

NON-TECHNICAL SKILLS

Analytical & Critical Thinking | Effective Communication | Collaboration & Teamwork

INTERSHIPS

C++ Programming Intern | CodeAlpha (Jul 1 - Jul 31, 2026)

- Completed a virtual internship focused on core C++ programming, OOP, and software development fundamentals.
- Implemented programs applying data structures, control flow, and modular, maintainable coding practices — directly transferable to Java and other enterprise stacks.
- Practiced memory management and pointers, debugging, and testing to build efficient, reliable solutions.

AI/ML Intern | Averix Solutions Pvt. Ltd. (Apr 1 - May 31, 2026)

- Built and evaluated ML models end-to-end: data preprocessing, model development, and testing using Python.
- Collaborated on model development using Pandas, NumPy, and scikit-learn — part of a real-time, team-based project workflow.

PROJECTS

Activity Performance Monitor | Python, OpenCV, Pandas, NumPy, Matplotlib

- Designed and coded a real-time computer vision pipeline for feature extraction and activity classification.
- Structured and tested data-processing logic using OOP-style modular code for maintainability and performance.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a fully responsive, database-ready website with a clean, user-centric UI/UX — full-stack front-end foundation for integrating APIs and back-end services.

CERTIFICATIONS

- Python Programming — Internshala (March 2025)
- Basics of Data Science — uniAthena (April 2025)
